The Ecological Society of America

OFFICERS FOR 1967

President: REXFORD DAUBENMIRE, Department of Botany, Washington State University, Pullman, Washington

Vice-President: GEORGE M. WOODWELL, Biology Department, Brookhaven National Laboratory, Upton, L.I., New York

Secretary: STANLEY I. AUERBACH, Radiation Ecology, Oak Ridge National Laboratory, Oak Ridge, Tennessee

Treasurer: WILLIAM C. ASHBY, Department of Botany, Southern Illinois University, Carbondale, Illinois

AIMS

THE ECOLOGICAL SOCIETY OF AMERICA was founded in 1915 for the purpose of giving unity to the study of organisms in relation to environment, as a means of furthering intercourse between persons who are approaching widely different groups of organisms from closely related points of view, for the stimulation of ecological research, and to assist the development of the utilities which may be served by ecological principles.

MEMBERSHIP

Membership is open to persons who are interested in the advancement of ecology or its applications, and to those who are engaged in any aspect of the study of organisms in relation to environment.

The following classes of membership are recognized:

Associate Members, annual dues, $2.00.
Active Members, annual dues, $12.00.
Sustaining Members, annual dues, $18.00.

Active and Sustaining Members receive ECOLOGY, for which not less than $8.50 of the dues are set aside. Six dollars of the dues of Sustaining Members are applied as the annual subscription to ECOLOGICAL MONOGRAPHS, the quarterly journal for longer articles. Members in arrears for dues will, on payment, be supplied with back numbers so far as they are available, but the journals do not hold themselves responsible for reserving back numbers in anticipation of the payment of back dues.

All members receive the BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA, issued by the Secretary in March, June, October, and December. It contains announcements of meetings and excursions of the Society, abstracts of papers, programs, items of current interest to members, and occasional membership lists.

Associate Members do not receive ECOLOGY or ECOLOGICAL MONOGRAPHS and are not eligible for office, but may become members in any one of the above classes upon the payment of the appropriate dues.

Active and Sustaining Members may obtain the journal ANIMAL BEHAVIOR at the special rate of $6.75 per year provided that their payment is made to the Treasurer of the Ecological Society.

Application blanks for membership may be obtained from the Secretary, to whom all correspondence concerning membership should be addressed. Checks accompanying membership application should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

TABLE OF CONTENTS, VOLUME 48, 1967

BLYDENSTEIN, JOHN. Tropical savanna vegetation of the Llanos of Colombia..... 1– 15
WALLER, H. D. AND J. S. OLSON. Prompt transfers of cesium-137 to the soils of a tagged *Liriodendron* forest..... 15– 25
JANZEN, DANIEL H. Fire, vegetation structure, and the ant X acacia interaction in Central America 26– 35
SLUSS, R. R. Population dynamics of the walnut aphid, *Chromaphis juglandicola* (Kalt.) in in Northern California..... 41– 58
WEST, G. C. Nutrition of tree sparrows during winter in central Illinois..... 58– 67
AYALA, F. J. Dynamics of populations. Factors controlling population growth and population size in *Drosophila pseudoobscura* and *D. melanogaster* 67– 75
WEIGERT, R. C., EUGENE P. ODUM, AND J. H. SCHNELL. Forb-arthropod food chains in a one-year experimental field..... 75– 83
NEUSHULL, M. Studies of subtidal marine vegetation in western Washington..... 83– 94
MORSE, DOUGLASS H. Foraging relationships of brown-headed nuthatches and Pine warblers 94–103
MCLAREN, IAN A. Seals and group selection..... 104–110
KING, CHARLES E. Food, age, and the dynamics of a laboratory population of rotifers..... 111–128
TASH, JERRY C. AND KENNETH B. ARMITAGE. Ecology of zooplankton of the Cape Thompson area, Alaska..... 129–139
MINSHALL, G. WAYNE. Role of allochthonous detritus in the trophic structure of a woodland springbrook community..... 139–149
WIMBUSH, D. J., M. D. BARROW, AND A. B. COSTIN. Color stereophotography for the measurement of vegetation..... 150–152
BARBOUR, M. G. AND R. T. LANGE. Seed populations in some natural Australian topsoils.. 153–155
FRY, KENNETH E. AND RICHARD B. WALKER. A pressure-infiltration method for estimating stomatal opening in conifers..... 155–157
EMLEN, J. T. A rapid method for measuring arboreal canopy cover..... 158–160
FITCH, H. S. AND ALICE V. FITCH. Preliminary experiments on physical tolerances of eggs of lizards and snakes..... 160-165
TINKLE, D. W. AND D. W. WOODARD. Relative movements of lizards in natural populations as determined from recapture radii..... 166–168
WIGLEY, ROLAND L. Comparative efficiencies of van Veen and Smith-McIntyre grab samplers as revealed by motion pictures..... 168–169
MEGARD, ROBERT O. Late-quaternary Cladocera of Lake Zeribar, western Iran..... 179–189
LONGHURST, ALAN R., CARL J. LORENZEN AND WILLIAM H. THOMAS. The role of pelagic crabs in the grazing of phytoplankton of Baja, California 190–200
CLUTTER, ROBERT I. Zonation of nearshore mysids..... 200–208
REICHLE, DAVID E. The temperature and humidity relations of some bog pselaphid beetles.. 208–215
SWANSON, GEORGE A. Factors influencing the distribution and abundance of *Hexagenia* nymphs (Ephemeroptera) in a Missouri River reservoir 216–225
HOLT, CHARLES S. AND THOMAS F. WATERS. Effect of light intensity on the drift of stream invertebrates 225–234
HODGES, JOHN D. Patterns of photosynthesis under natural environmental conditions..... 234–242
SHARP, WARD M. AND VANCE G. SPRAGUE. Flowering and fruiting in the white oaks. Pistillate flowering, acorn development, weather, and yields..... 243–251
HARTMAN, RICHARD T. AND DORIS L. BROWN. Changes in internal atmosphere of submersed vascular hydrophytes in relation to photosynthesis 252–258
HANES, TED L. AND HAROLD W. JONES. Postfire chaparral succession in Southern California 259–264
BAMBERG, SAMUEL, WERNER SCHWARZ, AND WALTER TRANQUILLINI. Influence of day-length on the photosynthetic capacity of stone pine (*Pinus cembra* L.)..... 264–269
HEATH, JAMES P. Primary conifer succession, Lassan Volcanic National Park..... 270–275

DAHLSTEN, D. L. Preliminary life tables for pine sawflies in the *Neodiprion fulviceps* complex (Hymenoptera: Diprionidae) 275–289
TAYLOR, N. W. A mathematical model for *Tribolium confusum* populations 290–294
WALKER, ILSE. Effect of population density on the viability and fecundity of *Nasonia vitripennis* 294–301
WILKEN, GENE C. History and fire record of a timberland brush field in the Sierra Nevada of California 302–304
CAPON, BRIAN AND WILLARD VAN ASDALL. Heat pre-treatment as a means of increasing germination of desert annual plants 305–306
GORHAM, EVILLE AND JON SANGER. Plant pigments in woodland soils 306–308
BAY, ROGER R. Ground water and vegetation in two peat bogs in northern Minnesota 308–310
HERREID, C. F. Mortality statistics of young bats 310–312
WALDBAUER, G. P. AND J. G. STERNBERG. Differential predation on cocoons of *Hyalophora cecropia* (Lepidoptera: Saturniidae) spun on shrubs and trees 312–315
BARTLETT, P. N. AND D. M. GATES The energy budget of a lizard on a tree trunk 315–322
PIANKA, E. R. Lizard species diversity 333–351
REICHLE, D. E. Radioisotope turnover and energy flow in terrestrial isopod populations 351–366
VESSEY, S. Effects of chlorpromazine on aggression in laboratory populations of wild house mice 367–376
HEALEY, M. C. Aggression and self-regulation of population size in deermice 377–392
MCINTOSH, ROBERT P. An index of diversity and the relation of certain concepts to diversity 392–404
GEHLBACH, FREDERICK R. Vegetation of the Guadalupe Escarpment, New Mexico-Texas 404–419
DESELM, H. R. AND R. E. SHANKS. Vegetation and floristic changes on a portion of White Oak Lake bed 419–425
DAUM, C. R. A method for determining water transport in trees 425–431
GASHWILER, JAY S. Conifer seed survival in a western Oregon clearcut 431–438
VAN DYNE, G. M. AND W. G. VOGEL. Relation of *Selaginella densa* to site, grazing, and climate 438–444
NAVEH, Z. Mediterranean ecosystems and vegetation types in California and Israel 445–459
HAERTEL, LOIS AND CHARLES OSTERBERG. Ecology of zooplankton, benthos and fishes in the Columbia River estuary 459–472
HORNE, FRANCIS. Effects of physical-chemical factors on the distribution and occurrence of some southeastern Wyoming phyllopods 472–477
OLDHAM, R. S. Orienting mechanisms of the green frog, *Rana clamitans* 477–491
GORHAM, EVILLE AND JON SANGER. Caloric values of organic matter in woodland, swamp, and lake soils 492–494
OSBORN, J., J. LETEY, L. F. DEBANO, AND EARL TERRY. Seed germination and establishment as affected by non-wettable soils and wetting agents 494–497
JACKSON, L. W. R. Effect of shade on leaf structure of decidous tree species 498–499
RISSER, PAUL AND GRANT COTTAM. Influence of temperature on the dormancy of some spring ephemerals 500–503
MCMILLAN, CALVIN AND FRANK N. MOSELEY. Salinity tolerances of five marine spermatophytes of Redfish Bay, Texas 503–506
YOUNG, FRANK N. A possible recycling mechanism in tropical forests 506
OVINGTON, J. D. AND D. B. LAWRENCE. Comparative chlorophyll and energy studies of prairie, savanna, oakwood, and maize field ecosystems 515–524
ZAHNER, ROBERT AND JOHN R. DONNELLY. Refining correlations of water deficits and radial growth in young red pine 525–530
FELGER, RICHARD S. AND CHARLES H. LOWE. Clinical variation in the surface-volume relationships of the columnar cactus *Lophocereus schottii* in Northwestern Mexico 530–536
KUCERA, C. L., ROGER C. DAHLMAN AND MELVIN R. KOELLING. Total new productivity and turnover on an energy basis for tallgrass prairie 536–541
BROWN, ROBERT THORSON. Influence of naturally occurring compounds on germination and growth of jack pine 542–546
SMITH, BRYCE E. AND GRANT COTTAM. Spatial relationships of mesic forest herbs in southern Wisconsin 546–558

KALFF, JACOB. Phytoplankton abundance and primary production rates in two arctic ponds 558–565
BROCK, THOMAS D. Relationship between standing crop and primary productivity along a hot spring thermal gradient 566–571
JOHNSON, RALPH G. The vertical distribution of the infauna of a sand flat 571–578
HERREID, CLYDE F., II, AND STEPHEN KINNEY. Temperature and development of the wood frog, *Rana sylvatica*, in Alaska 579–590
BARRETT, RONALD W. AND H. C. CHIANG. The effects of thermal heterogeneity in the environment on the activity and development of *Oncopeltus fasciatus* (Dallas) 590–598
LICHT, PAUL AND ALLEN G. BROWN. Behavioral thermoregulation and its role in the ecology of the red-bellied newt, *Taricha rivularis* 598–611
DELONG, KARL T. Population ecology of feral house mice 611–634
TIETJEN, HOWARD P., CURTIS H. HALVORSON, PAUL L. HEGDAL AND ANCEL M. JOHNSON. 2,4-D herbicide, vegetation, and pocket gopher relationships, Black Mesa, Colorado 634–643
EGGLER, WILLIS A. Influence of volcanic eruptions on xylem growth patterns 644–647
VICKERY, ROBERT K., JR. Ranges of temperature tolerance for germination of *Mimulus* seeds from diverse populations 647–651
SCHULZE, E. D. Soil respiration of tropical vegetation types 652–653
BOX, THADIS W. Influence of drought and grazing on mortality of five West Texas grasses 654–656
MARSHALL, D. R. AND S. K. JAIN. Cohabitation and relative abundance of two species of wild oats 656–659
WORKMAN, JOHN P. AND NEIL E. WEST. Germination of *Eurotia lanata* in relation to temperature and salinity 659–661
CAPLENOR, DONALD. Temperature control of germination of *Helenium amarum* seeds 661–664
WHITESIDE, MELBOURNE C. AND RODNEY V. HARMSWORTH. Species diversity in chydorid (Cladocera) communities 664–667
DE SANTO, ROBERT S. An aquarium tide timer—theory and operation 668–670
JOHNSTONE, DONALD B. Isolation of *Azotobacter insignis* from fresh water 671–672
PROCTOR, VERNON W., CHARLES R. MALONE AND VICTOR L. DEVLAMING. Dispersal of aquatic organisms: Viability of disseminules recovered from the intestinal tract of captive killdeer 672–676
BROWN, LARRY N. Ecological distribution of mice in the Medicine Bow mountains of Wyoming 677–680
WOODWELL, G. M. AND J. H. BROWER. An aphid population explosion induced by chronic gamma irradiation of a forest 680–683
DAVIS, DAVID E. The role of environmental factors in hibernation of woodchucks (*Marmota monax*) 683–689
MORTON, MARTIN L. The effects of insolation on the diurnal feeding pattern of white-crowned sparrows (Zonotrichia Leucophrys Gambelii) 690–694
GESSEL, STANLEY P. AND GORDON H. ORIANS. Rodent damage to fertilized Pacific silver fir in Western Washington 694–697
FRANTZ, TED C. AND ALMO J. CORDONE. Observations on deepwater plants in Lake Tahoe, California and Nevada 709–714
CAPERON, JOHN. Population growth in micro-organisms limited by food supply 715–722
JOHNSON, D. S. Distributional patterns in Malayan freshwater fish 722–730
MURPHY, GARTH I. Vital statistics of the Pacific sardine (*Sardinops caerulea*) and the populational consequences 731–736
LICHT, LAWRENCE E. Growth inhibition in crowded tadpoles: intraspecific and interspecific effects 736–745
BEATLEY, JANICE C. Survival of winter annuals in the northern Mojave Desert 745–750
JANSSEN, C. R. A floristic study of forests and bog vegetation, northwestern Minnesota 751–765
MCCOLL, J. G. AND R. F. HUMPHREYS. Relationships between some nutritional factors and the distributions of *Eucalyptus gummifera* and *Eucalyptus maculata* 766–771
